EXPERIENCE

JUNIOR DEVELOPER | Superna (Remote)

AUG 2022 – PRESENT

- Develop high quality User Interface (UI) components for Superna's products to perfectly match the design.
- Implement Redux and Redux-Toolkit to manage product state across the platform.
- Design, develop, test, deploy and maintain high quality software systems.
- Perform code reviews and write unit testing.
- Implement new designs from the design team.
- Develop and maintain excellent working relationships with various stakeholders including UX/UI designers and QA.
- Research software development trends to stay current and apply those where necessary.
- Implement Jest and Playwright testing to ensure that the platform functions without issue.
- Identify any risks of shortcomings or bugs in the software.
- Implement Storybook to streamline UI development, testing, and documentation.
- Write and update technical documentation.

FULL STACK WEB DEVELOPER | Kellen Wiltshire Web Development (Kingston, ON)

JAN 2021 – AUG 2022

- Built functional and responsive websites with the latest technologies such as React, NextJS, Typescript, and traditional HTML/CSS to meet Client expectations for performance.
- Created beautiful and easy to use UI to bring the Clients vision to life using TailwindCSS, Emotion Style Components, StorybookJS, and CSS.
- Created secure Backend services and databases using Node, ExpressJS, PostgreSQL, and Strapi.
- Experienced working with Shopify and Squareup API to create merchant stores and process payments.
- Experienced in building scalable web applications using best practices in a continuous delivery environment.

LEGAL AID WORKER | Legal Aid Ontario (Napanee, ON)

JAN 2016 – AUG 2022

- Triaged and assessed the needs of the Clients in order to determine the most appropriate service.
- Completed certificate applications by determining eligibility for services by telephone, in court, or in federal or provincial institutions.
- Identified vulnerable clients and ensured appropriate services and referrals can be made.
- Improved client satisfaction by referring clients to other government services as needed.
- Provided training to new staff on Legal Aid policies and procedures (including PeopleSoft ERP).
